and
Statistical Reporting Service

ACKNOWLEDGMENT

The inventory, production, slaughter, utilization, monthly and annual average price, and livestock value statistics for Florida are official State and USDA estimates prepared by the Crop and Livestock Reporting Service. Corresponding data for other livestock producing States are from official reports of the USDA Statistical Reporting Service. Information on shipments, auction market prices, and special feeder sales are from cooperative work between the Florida Department of Agriculture's Market News Section and the Divisions of Inspection and Animal Industry, and the USDA's Livestock Division, Agricultural Research Service and Crop and Livestock Reporting Service.

Many livestock producers and ranchers, slaughterers, auctions, feed lots, and other agencies associated with the livestock industry offered suggestions or voluntarily supplied basic data used to develop these statistics. Their contributions are sincerely appreciated.

This publication was prepared by C. R. Brantner and P. J. Guss, Agricultural Statisticians, Florida Crop and Livestock Reporting Service, and Gifford Rhodes, Marketing Specialist, Market News Section.

7/75

Cattle and calves: Number on farms by classes, Florida, January 1, 1965 - 1975

Year	Kept for milk				Beef						All cattle & calves

1/ U.S. grades of slaughter vealers and calves were revised effective January 1, 1972. Grade requirements were relaxed which resulted in larger proportions qualifying for higher grades. 2/ U.S. grades for slaughter bulls were revised effective July 1, 1973: mature bulls now graded on yield grades 1, 2 & 3. Yearling bulls on quality grade.

1/ Balance sheet estimates by states: The sum of inventory Jan. 1, 1974, calf crop and inshipments is equal to the sum of marketings, farm slaughter, deaths and inventory Jan. 1, 1975. 2/ Not strictly a calving rate. Figure represents calves born expressed as percentage of the number of cows that have calved on hand Jan. 1, 1974. 3/ Excludes interfarm sales, but includes custom slaughter for use on farms where produced. 4/ Does not include animals custom slaughtered for farmers at commercial establishments.

Cattle and calves: Marketings, cash receipts and income, United States, 1965-1974

Year	Marketings 1/	Price per 100 pounds		Cash receipts 2/	Gross income
		Cattle	Calves		
	1,000 pounds	Dollars		1,000 dollars

1/ Civilian consumption only, beginning 1941. 2/ Approximately at wholesale level of distribution. 3/ Equivalent eviscerated weight basis. Although most of the poultry was sold in dressed form until the 1940's, most is now sold ready-to-cook. The entire series was put on the latter basis to achieve comparability. 4/ Measured approximately at wholesale level of distribution. Average weight of eggs 1909-46 is assumed to be 1.5 pounds per dozen; conversion factor subsequently increased 0.01 pound each year through 1952, remained at 1.56 through 1956, thereafter 1.57. This change in factor allowed for the increasing size of eggs marketed. N/A Not Available.
